PART II

MARITIME AREAS OF SAINT CHRISTOPHER AND NEVIS

Territorial sea.

3. (1) Subject to subsection (2), the territorial sea of Saint Christopher and Nevis comprises those areas of the sea having, as their inner limits, the baseline of the territorial sea and, as their outer limits, a line measured seaward from that baseline, every point of which is 12 nautical miles distant from the nearest point of that baseline.

(2) Whenever the equidistance line between Saint Christopher and Nevis and an adjacent State is less than 12 nautical miles from the nearest point of the baseline of the territorial sea, the delimitation of the territorial sea shall, if possible, be effected by agreement between Saint Christopher and Nevis and the adjacent State; but to the extent that no such agreement is effected, that equidistance line shall constitute the outer limits of the territorial sea.

(3) In this section, “equidistance line” as between Saint Christopher and Nevis and an adjacent State, means a line every point of which is equidistant from the nearest point of the baseline of the territorial sea and the corresponding baseline of the adjacent State.

Baseline of territorial sea.

4. (1) Except as otherwise provided in this section, the baseline from which the breadth of the territorial sea is measured shall be the low-water mark along the coast of Saint Christopher and Nevis, including the coast of all islands.

(2) In the case of the sea adjacent to a bay, the baseline from which the breadth of the territorial sea is measured—

- (a) where the bay has only one mouth, shall be a straight line joining the low-water marks of the natural entrance points;
- (b) where, because of the presence of islands, the bay has more than one mouth, shall be a series of straight lines across each of the mouths so as to join those low-water marks points.

(3) For the purpose of delimiting the territorial sea, the outermost permanent harbour works which form an integral part of any harbour system shall be treated as forming part of the coast, but for that purpose off-shore installations and artificial islands shall not be considered as permanent harbour works.

(4) The Minister may, whenever he or she considers it necessary to do so having regard to international law and practice, by Order published in the *Gazette*, direct that, to the extent set out, the baseline from which the breadth of the territorial sea is measured shall be as prescribed in, or determined by or in accordance with, the Order.

(5) In this section, “bay” means an indentation of the coast such that its area is not less than that of the semi-circle whose diameter is a line drawn across the mouth of the indentation.

(6) For the purpose of the definition of “bay” in subsection (5)—

- (a) the area of an indentation shall be taken to be the area bounded by the low-water mark around the shore of the indentation and the straight line joining the low-water marks of its natural entrance points;
- (b) where, because of the presence of islands, an indentation has more than one mouth, the length of the diameter of the semi-circle referred to shall be the sum of the lengths of the straight lines drawn across each of the mouths; and
- (c) in calculating the area of an indentation, the area of any islands lying within it shall be treated as part of the area of the indentation.

Internal waters.

5. The internal waters of Saint Christopher and Nevis comprise any areas of the sea that are on the landward side of the baseline of the territorial sea.

Contiguous zone.

6. (1) The contiguous zone of Saint Christopher and Nevis comprises those areas of the sea that are beyond and adjacent to the territorial sea, having as their outer limits a line measured seaward from the baseline of the territorial sea, every point of which is 24 nautical miles distant from the nearest point of that baseline.

(2) The contiguous zone shall not extend into any part of the territorial sea of a foreign State and, where appropriate, the operation of subsection (1) shall be modified to the extent necessary to meet the requirement of this subsection.

Continental shelf.

7. (1) Subject to subsection (2) and section 9, the continental shelf of Saint Christopher and Nevis comprises those areas of the seabed and subsoil of the submarine areas that are beyond and adjacent to the territorial sea throughout the natural prolongation of the land territory of Saint Christopher and Nevis to the outer edge of the continental margin, or to a distance of 200 nautical miles from the nearest point of the baseline of the territorial sea when the outer edge of the continental margin does not extend up to that distance.

(2) For the purposes of subsection (1), wherever the continental margin extends beyond 200 nautical miles from the nearest point of the baseline of the territorial sea, the outer limit of the continental shelf shall be established with all due regard to the requirements and limitations of international law relevant to the establishment and delineation of the continental shelf beyond that distance.

(3) For the purposes of this section, the continental margin comprises the submerged prolongation of the land mass of Saint Christopher and Nevis consisting of the seabed and subsoil of the shelf, the slope and the rise, but does not include the deep ocean floor with its oceanic ridges or the subsoil thereof.

Exclusive economic zone.

8. Subject to section 9, the exclusive economic zone of Saint Christopher and Nevis comprises those areas of the sea that are beyond and adjacent to the territorial sea having, as their outer limits, a line, measured seaward from the baseline of the territorial sea, every point of which is 200 nautical miles distant from the nearest point of that baseline.

Delimitation of continental shelf or exclusive economic zone in certain cases.

9. (1) Wherever the equidistance line between Saint Christopher and Nevis and an adjacent State is less than 200 nautical miles from the nearest point of the baseline of the territorial sea—

- (a) the delimitation of the continental shelf shall be effected by agreement between Saint Christopher and Nevis and the adjacent State on the basis of international law in order to achieve an equitable settlement; and
- (b) the delimitation of the exclusive economic zone shall be effected between Saint Christopher and Nevis and the adjacent State on the basis of international law in order to achieve an equitable settlement.

(2) Where, in any case, an agreement of the kind referred to in paragraph (a) or (b) of subsection (1) cannot be reached, Saint Christopher and Nevis shall have recourse to the procedures provided by international law for the settlement of any dispute.

(3) Pending the delimitation of—

- (a) the continental shelf pursuant to subsection (1)(a) or (2); or
- (b) the exclusive economic zone pursuant to subsection (1)(b) or (2),

the equidistance line between Saint Christopher and Nevis and the adjacent State shall constitute the outer limits of the continental shelf or, as the case may be, the exclusive economic zone, unless Saint Christopher and Nevis and the adjacent State make other provisional arrangements with respect to those limits.

(4) For the purpose of implementing any agreement under subsection (1), any settlement pursuant to subsection (2) or any provisional arrangements under subsection (3), the Minister may, from time to time, by Order published in the *Gazette*, declare that the continental shelf or the exclusive economic zone shall not extend to any specified area of the sea, seabed or subsoil that would otherwise be included therein by virtue of section 7 or, as the case may be, section 8, and the Order, while it remains in force, shall have effect according to its tenor, notwithstanding anything in this Act.

(5) In this section, “equidistance line”, as between Saint Christopher and Nevis and an adjacent State, means a line every point of which is equidistant from the nearest point of the baseline of the territorial sea and the corresponding baseline of the adjacent State.
